Field	Details
Project	Nepdora
Base URL	https://nepdoraapi.baliyotech.com/api/
Testing Tool	Apache JMeter
Environment	Production
Tester	Bikash Mehta
Testing Type	Performance Testing
Date	15/09/2026

Test ID	Feature	Users	Avg Response	Error %	Result
PERF_01	Homepage	1	549 ms	0%	Request completed successfully with no errors and acceptable response time.
PERF_02	Homepage	10	247 ms	0%	Requests completed successfully with no errors and improved average response time.
PERF_03	Dashboard API	1	279 ms	0%	API responded successfully with no errors and good response time.
PERF_04	Dashboard API	10	850 ms	0%	API handled 10 users successfully with no errors, though response time increased.
PERF_05	Products API	1	1301 ms	0%	API responded successfully with no errors, but response time was relatively high
PERF_06	Products API	10	1343 ms	0%	API handled 10 users successfully with no errors and similar response time.
PERF_07	Products API	20	1215ms	0%	API handled 20 users successfully with no errors and slightly improved response time
PERF_08	Products API	50	1666 ms	0%	API handled 50 users successfully with no errors, but response time increased under higher load.
PERF_09	Orders API	1	3218 ms	0%	API responded successfully with no errors, but response time was relatively high.
PERF_10	Orders API	10	312 ms	0%	API handled 10 users successfully with no errors and significantly lower average response time.

PERF_11	Orders API	20	697 ms	0%	API handled 20 users successfully with no errors, with a moderate response time.
PERF_12	Orders API	50	326 ms	0%	API handled 50 users successfully with no errors and maintained a relatively good response time.
